Make Sure Your Students Are Ready for the California Standards Test in Science

- Science content that matches California's Frameworks and Content Standards
- Integration of California's English-language Arts Content Standards
- Three reading levels for each title for differentiated and value-added instruction
- Above level versions so high achievers experience growth
- Unlimited rights to reproduce the books whenever you want—NO RENEWAL FEES
- Encourages interactivity with the text
- A great way for students to build a nonfiction home library

Unlimited Reproduction Rights!

Purchase a License to Reproduce all **69 TITLES**

When you purchase *Focus on California Standards*, you are purchasing a license that gives your school the right to unlimited reproduction of the books with **NO RENEWAL FEES**. Each individual school must purchase a license.

When you purchase a license, you will receive a CD that contains PDF files for each title you order. Double click on the title you want and print the book. Then follow the instructions for printing and folding the books. You only need to print the titles you want and as many copies as you need. It's easy and cost effective.

Students Can Interact with the Text!

Since printing the books is easy and inexpensive, you can encourage students to highlight or underline key parts of the text. Students can circle words or concepts they are unsure of to further clarify when they revisit the text. They can also write down questions or reminders as they read or answer the questions found in the active reading prompts.

Plus, Every Student Can Build a Home Library!

Since you purchase the unlimited right to reproduce *Focus on California Standards* books, you can give each student a copy of his or her own to take home. They can read the books with their families and build their own nonfiction literacy libraries.

Load this CD on your computer and have unlimited access to the science content your students need to exceed expectations on the California Standards Test.

**No Renewal Fees
When You Purchase
a License for Each School**

COPY MASTERS

Copy Masters Are Now Available!

In addition to purchasing a license to reproduce *Focus on California Standards* books from PDF files, you can also purchase pre-printed copy masters ready for duplication.

Important!

The cost of these pre-printed copy masters is in addition to the license price. You must purchase a license to reproduce these books in order to purchase the copy masters.
