

**Classify** Classify the following list of organisms by placing an X in the table to identify the feeding level of each organism. You can identify an organism in multiple categories.

	Producer	Primary Consumer	Secondary Consumer	Scavenger	Decomposer
cow					
buttercup					
lion					
lettuce					
earthworm					
caterpillar					
vulture					
bacteria					
fox					

**Draw Food Chains** Use arrows to illustrate a food chain for each group of organisms. Circle the top consumer. The first one is done for you.
